

Hose Boom^{20'}

One Boom Does It All.

Fully hose-lined boom

Totally non-corrosive connection

Dual-bracing system ensures stability

OPTIONS

- Boom length to 20' (custom lengths upon request)
- Boom end fittings: 3/4" male or 3/4" female
- Clamp diameters: 3", 4", 4-1/2", 5", 5-9/16", 6", 6-5/8", 8", 8-5/8", 10"

Hose Boom

Solid, rigid construction – utilizing high tensile strength steel tubing lined with the best hose drop material. Superior galvanized tubing on the outside, light-weight non-corrosive hose on the inside.
