

3/4" Risers - Galvanized Steel

We have manufactured risers for over 50 years and they have stood the test of time! Risers manufactured by IACO are made of 3/4" O.D. x .062 wall (16 gauge) G-90 galvanized ASTM-513 ERW steel tubing, in lengths required by the purchaser. End fittings are made of swedge-fit die cast zinc alloy (Zamac #3: 40,000 psi tensile, 60,000 psi yield-compression), threaded to American Standard Pipe Thread (NPT) standards, with all threads clean and full.
