

LEVELER
ELBOW

Replaces an assortment of iron pipe fittings. Zinc alloy die cast threaded fittings. Swedge-locked in galvanized steel tubing for greater strength. Will not seize or gall. No assembly required – easily installed with all standard sprinkler head levelers. Available for 1" or ¾" system outlets.

| 1M X 3/4F | 90ø - GALVANIZED | MEL-112-090 | 1.1 | 50 |

FLAPPER DRAIN
VALVE

Our founder, Bill Stout, invented the Flapper Drain Valve in 1950. Don't be fooled by cheap knockoffs. Demand the original. The OEM's continue to support the original "MADE IN AMERICA" Flapper Drain Valve. Recently a dealer called us with a problem with structural integrity. When they sent us some samples of the problem parts we immediately knew they were a cheap knockoff from China or India. We still warrantied the parts just asking them to tell their supplier they only want the original "MADE IN AMERICA" IACO Flapper Drain Valve. Field proven for over 60 years. Use Patent Picture from Timeline.
