

FLAPPER DRAIN VALVE

- For any mechanized irrigation system
- IACO Flapper Drain Valves are manufactured of long lasting non-corrosive materials
- Regardless of flow direction, rubber flapper closes tight
- Insert designed so closing flapper cannot be forced through opening
- Splash nut disperses water to prevent soil erosion
- Field proven for over 40 years

**NEW FLAPPER FORMULATION FOR
TODAY'S LOWER FLOWS/PRESSURE**

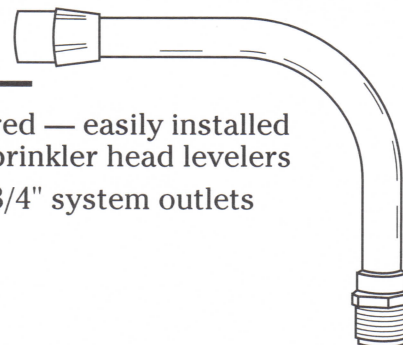

IRRIGATION HOSE

	<u>PSI</u>	<u>100'</u>	<u>FULL ROLL</u>	<u>2 - 4 ROLLS</u>	<u>5 - 8 ROLLS</u>	<u>9+ ROLLS</u>
2" PVC	200	R	5%	7%	9%	10%
3" PVC	200	O				
4" PVC	150	L				
3" RUBBER	150	L				
4" RUBBER	150	S				

LEVELER ELBOWS

- Replaces an assortment of iron pipe fittings
- Zinc alloy die cast threaded fittings. Swedge-locked in galvanized steel tubing for greater strength. Will not seize or gall
- No assembly required — easily installed with all standard sprinkler head levelers
- Available for 1" or 3/4" system outlets
